Series of fixed rectangular and square tables in tubular satinated stainless steel AISI 304, section cm 10x4. The top is in tempered mirrored glass with ground edging. Some size include a central basin (cover in stainless steel available). The laser working process of the stainless steel guarantees maximum precision in cutting and perforation. The structure is pre-assembled and has no welding of any type. The non oxidizability of the stainless steel gives a high resistance to wear and to corrosion. This is the reason the materials never undergo any type of varnishing. The collection may be completed with the various complementary pieces available: chairs, armchairs, carpets, cushions, pouff, etc. . . .

Articols and Measurements:

POINT 17	**rectangular table**	cm 150x100xh75
POINT 18	**rectangular table**	cm 200x100xh75
POINT 19	**rectangular table**	cm 240x100xh75
POINT 20	**rectangular table**	cm 270x100xh75 with central basin*
POINT 21	**rectangular table**	cm 370x100xh75 with central basin*
POINT 15	**square table**	cm 150x150xh75
POINT 16	**square table**	cm 150x150xh75 with central basin*
	central basin *inox cover available	cm 10x table width xh9
	mirrored glass top	thickness mm 8

Glass finishes: smoke / bronze coloured

Maintenance: steel: use supplied product or a specific one for inox
glass: clean with a specific product

Designer: xam Project Studio
Year of production: 2004
